

Parts Information Bulletin 09
Engine Rain Cap Standoff Brackets
August 8, 2000

Engine Rain Cap Standoff Brackets, part numbers 1125450020 (starboard/aft), and 1125650010 (port/forward), are being replaced by newly designed brackets. The new brackets (shown above) are designed to fit on the intake manifolds of engines after serial number 0755106. Part number 1125450021 will be taking the place of part number 1125450020, and part number 1125650011 will be replacing part number 1125650010. The new brackets will not fit on the older manifolds, nor will the older brackets (shown below) fit on the manifolds of engines after serial number 0755106.

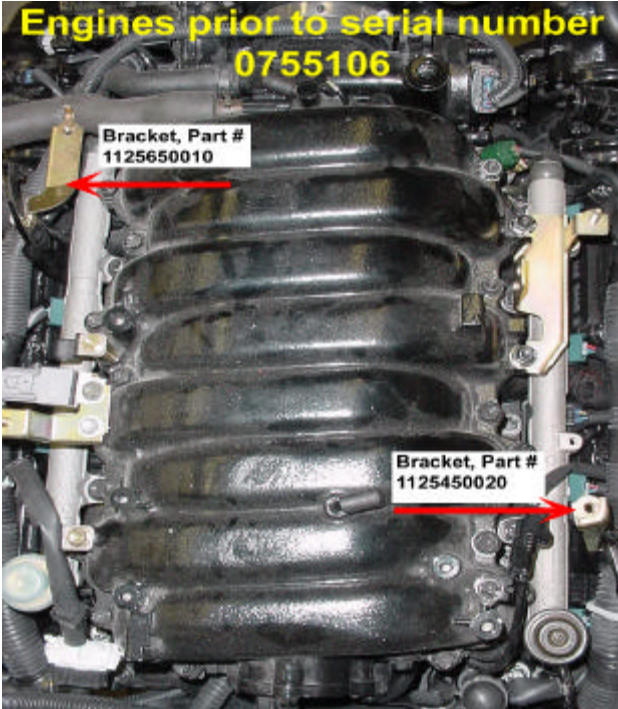

NOTE: These brackets are designed for the engines prior to serial number 0755106.

Part number 1125650010 is located on the engine at port side forward.
Part number 1125450020 is located on the engine at starboard side aft.
