

## Technical Service Bulletin 4

### Owner's Manual Distribution

June 1, 1999- Rev Part # April 15, 2003

This bulletin affects all 1999 M.Y. Epic 21 Boats with a HIN below A050.\*

\*Note: Dealers should add these documents to any unsold boats in inventory that do not already have them prior to sale.

These units shipped without the correct Owner's Manuals in a pouch. Toyota Marine Sports has therefore shipped to each dealer a complete inventory of Owner's Manuals and pouches based on current inventory numbers.

Please deliver 1 manual in a pouch with every each boat in your inventory. If you should find yourself short of pouches or manuals, order them using the part numbers below, and submit a "parts" claim for warranty reimbursement, referencing this TSB in the comments. The correct Owner's Manual will be in black & white with red shading and have a full color cover like the one seen below.

For this bulletin, the only applicable parts are the Owner's Manual & the Pouch.
