TOYOTA MARINE SPORTS
HULL IDENTIFICATION NUMBER (HIN)

1. PRIMARY HULL NUMBER (12 Characters):
   - Location and size per USCG regulations – ¼ inch high on boat transom, on starboard outboard side, within two inches of hull/ deck joint.

2. DUPLICATE (Hidden) HULL NUMBER:
   - Located under the fuel tank, on port side, in both the Epic 21 and 22 models.

3. DECK NUMBER (control number, no required by code):
   - Located in the deck behind the shifter assembly. Repeat of HIN

4. 12 CHARACTER HID LAYOUT:

   - 1, 2 and 3;   SOE   (Meritec Manufacturer Identification Code)
   - 4;   T   (Recurring alphabetical T, designating a Toyota product, built by Maritec. Maritec will not use T in there system)
   - 5;   A, B or C   (Toyota Boat Model Designation
     A is used for Epic 21 model,
     B for the Epic 22 model,
     C for the Epic X22 Wakeboard edition
     D to Z (Except I, O & Q) will be assigned, in sequence to future TMO models)
   - 6, 7 and 8;   001 to 999   (Numerical **sequential** product serial number starting at 001 to 999. If a model year production run exceeds 999 units one of two solutions will be used:
     - If we are still using a supplier to build boats the 6th character would be changed to the letter A for 99 units, then B for 99 units etc.
       [Example the 1000 Epic 21 would be SOETAA01 and the 1100 unit SOETAB01].
     - If TMO has obtained our own Manufacturer Identification Code then we would make the 4th 'character the model designation and will have 9999 units per model available)
   - 9;   A to L   (Alphabetical **sequential** letter representing month of manufacturer with A being January and L being December)
   - 10;   8   (Numerical last digit of the **Calendar Year** in which product was manufactured, 8 for calander 1998)
   - 11 and 12   99   (Numerical last two digits showing the **Boat Model Year**, For TMO all first production boats are 1999 model year boats.)

Example of HIN for Toyota Epic 21 is **SOETA001E899**
Example of HIN for Toyota Epic 22 is **SOETB001H899**
Example of HIN for Toyota Epic X22 will be **SOETC001L899**
